

# Finding Science

Grades K – 2

## Description:

If you have questions, science probably has the answers. In our Finding Science summer program, we'll discover the science in the world around us and answer questions like: *Why is the sky blue? How do birds fly? What makes a boat float?* and many more! Working on a different daily theme ranging from astronomy to zoology, every day will involve hands-on activities and time outdoors.

**Date:** July 31-August 4 & August 7-11

**Session A Times:** 8:45-11:15

**Session B Times:** 12:00-2:30

**Where:** Meadowlands Environment Center  
(end of Valley Brook Ave)

**Cost:** \$25 per child, per session, per day

**Details:** There will be 2 sessions each day. Sessions are independent from one another so a child can attend one or both. Activities and themes will vary daily. If enrolled for both sessions, lunch will be supervised by staff so a child can remain on-site 8:45 to 2:30. Please visit our website for FAQ's.

**Registration:** Online only by visiting our website at [www.rst2.org/mec](http://www.rst2.org/mec)

- **Pre-registration is required**
- **Camp runs rain or shine**

- **Dress for mess!!!**
- **Waiting list available**

# Junior Explorers

Grades 3 – 5

## Description:

Each day of this day camp will focus on a different natural science topic. There will be hands-on lessons, games, and themed arts & crafts that are all content-based and correlated to the same standards adhered to in schools. Weather permitting, we will try to include some time outside every day, so please dress appropriately.

**Opens  
April 15th**  
Space is limited

Waiting list available

3 De Korte Park Plaza □ Lyndhurst □ NJ □ 07071
